

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	E & A Industries
Applicant's Name:	E & A Industries
Site Location:	8520 Pendleton Pike Indianapolis Marion County
VRP Site Number:	6970903
Project Manager:	Bill Wieringa
Date Application Received:	September, 1997
Date Project Completed:	March, 1999
Project Duration:	1 year, 6 months
Contaminant Group(s):	Volatile Organic Compounds (VOCs), Semi-Volatile Organic Compounds (SVOCs)
Media Cleaned Up:	Surface Soil, Subsurface Soil
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Nonresidential

Project Description: The site is a multi-facility building on the east side of Indianapolis. Some of the businesses located there are a towing service, car restoration shop, car sales facility, car salvage operation, and some office space.

The site entered the VRP to address gasoline and diesel constituents found in the soil at their site, which appear to be from a former leaking underground storage tank (UST) and historic spills on the site. The site investigated the property and found that all of the diesel constituents were present below the VRP Tier II Nonresidential Cleanup levels. They then proposed a site sampling plan to confirm the previous findings.

IDEM staff split confirmation samples with the site, and the results supported the no further action recommendation.
